Summary

I am a creative and highly motivated web developer with recent experience in website and graphic design. With my experience as a designer, I am comfortable at design and design patterns using Adobe software. Through a lot of persistence and discipline, I taught myself other technologies such as jQuery, MySQL and Java. Currently, I specialize in front-end web development using HTML, CSS, and JavaScript, but I'm excited to learn the back-end and newer languages.

I am looking to utilize my skills in a web development role.

Skills

Web Languages	HTML5, CSS3/SASS, JavaScript, Java, MySQL
Frameworks & Libraries	Bootstrap, Foundation, jQuery
Version Control	Git, Github
Software	Adobe Photoshop, Illustrator, InDesign

Work Experience

United States Biological

Salem, MA

WEB/GRAPHIC DESIGNER

Jan. 2016 - Present

- Design and develop company web pages using **HTML**, **CSS** and **Foundation** framework.
- Use Adobe Photoshop, Illustrator, and InDesign applications to create wire-frames, visual designs, graphics, logos and branding material.
- Produce and market HTML emails and campaigns to various companies.
- Convert any image or PSD files into HTML.

Projects

Stocks Data

RESTFUL WEB APP

- Displayed stock data from a local database or Yahoo Stocks API.
- Developed using **Java** as a back-end with Hibernate to access local database with **MySQL**.
- Implemented a web GUI by adding **JavaServer Pages**, **Java servlets** and **JavaBeans** executing off of a Tomcat web server.

Web Portfolio

WWW.NARITHSAY.COM

- Includes DOM manipulation **JavaScript** web games such as a Dice game and RGB color game.
- Consists of mockups and custom template websites using **Bootstrap** and **SASS**.
- View all of my project's code at my GitHub: www.github.com/nsay.
